About Greenconn

Established in 1998, Greenconn is a leading provider of cables and connectors used in automotive, industrial, and medical engineering, as well as telecom and consumer electronics. Our products include board to board connectors, pin headers, female header, box header, customized automotive connectors, RJ45 with transformers, high speed cable SFP, QSFP, Mini SAS, Mini SAS HD, Wafer, FPC, USB, Terminal Block... etc.

As a customer-driven corporation, Greenconn is committed to service our clients as each of them is unique and one-of-a-kind. From designing and developing new products to manufacturing automation and quality control, we monitor every step of the process to ensure our customers' needs are satisfied to the best of our ability, while strictly adhering to international standards such as ISO9001, IATF16949, and QC080000.

Since 1998, Greenconn's dedication in customer service and quality control has gain trust and recognition of many established corporations in the industry. Greenconn is now servicing the clients all over the world from our office in Taipei, 3 factories in China, and over 20 distributors around the globe.

- 2018 Excellent Supplier Honor by Omron
2nd Jiangxi Factory Established
- 2017 Global Distribution Contract with Avnet
Plating Factory Established in Jiangxi
- 2014 Hi-speed Cable Department Established
- 2012 RJ45 department Established
Jiangxi Factory Relocated
- 2010 Cable Assembly department Established
- 2008 Kunshan Factory Established
- 2005 Jiangxi Factory Established
- 2004 Greenconn Instructed by Omron Consultant on Quality Control and 5S
Greenconn Received Formal Order from OMRON
- 2000 Shenzhen Branch Established
- 1998 Established in Taipei, Taiwan
