## About Phihong

Since 1972, Phihong has been at the forefront of technological innovation in power electronics manufacture and design. By employing the latest in technology and research and development, Phihong's customers have continued to expect and receive the best possible products with on-time delivery and exceeding worldwide standards in efficiency and safety.

With a truly international space covering North America, Europe, and Asia, Phihong has design labs and local sales support centers in California, New York, the Netherlands, China, Japan, and Taiwan; Phihong is a top choice for OEMs serving datacom, telecom, personal electronics, networking, lighting, and industrial markets.

Focusing on engineering excellence, product reliability, and a commitment to customer service, sales have continued to grow proving a continued dominance in the power technology industry with a broad line of cost competitive highly efficient products that comply with international standards.

OEMs also choose Phihong to partner on custom projects to meet the needs of very special programs not satisfied by the standard product offerings. With a long history in both standard and custom power designs, Phihong has one of the market's broadest lines of cost competitive and highly reliable power solutions.

## Phihong OEM/ODM Capabilities

Since 1972, Phihong has been the top choice by OEM's and ODM's throughout the world, for customized power solutions. Today over 90% of Phihong's business comes from OEM and ODM customers within the Datacom, Telecom, Networking, Personal Electronics & Industrial markets.

Phihong's OEM and ODM capabilities include:

- Simple rebranding of standard off the shelf Phihong product with customer's logo.
- Electrical modifications to standard off the shelf Phihong product.
- Mechanical modifications to standard off the shelf Phihong product, including customized ID.
- Built to print jobs.
- Complete custom designs.

With over 600 Engineering resources spanning North America, Asia and Europe, Phihong has strong localized design teams ready to solve any power problem that you may have. In addition, each OEM and ODM project has a dedicated local Program Management to act as the liaison between the factory and the customer to provide real time answers to any business issue.

Today, all Phihong manufacturing is done at our own factories in Vietnam and China, providing our OEM and ODM customers with very cost competitive solutions as well as tariff and Geo-Political risk mitigation.

Phihong's global footprint combined with our ability to provide low cost manufacturing and strong localized technical support provides a unique dynamic to our OEM and ODM customers that allows us to provide quality solutions on time, to budget and to schedule.
